PLOCKMATIC

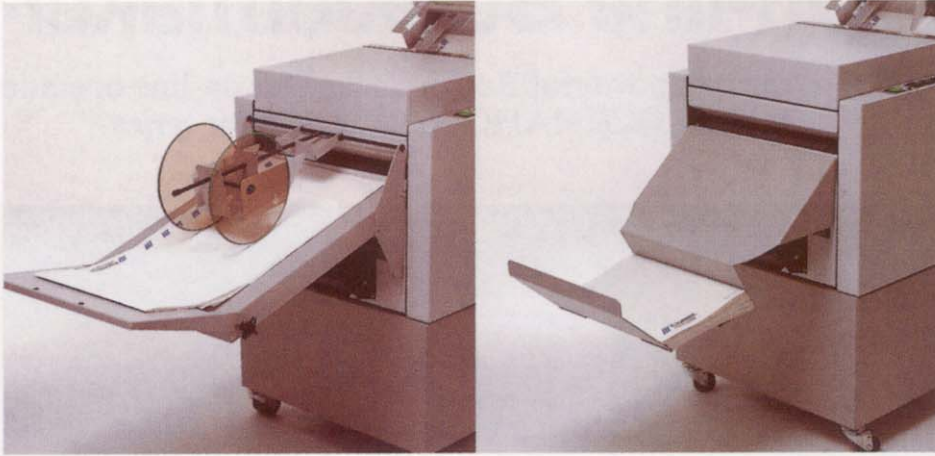

On-line Bookletmaker

A compact and powerful Bookletmaker for on-line operation
with PLOCKMATIC 300/400 collator series.

PLOCKMATIC - YOUR PARTNER IN DOCUMENT FINISHING PRODUCTS

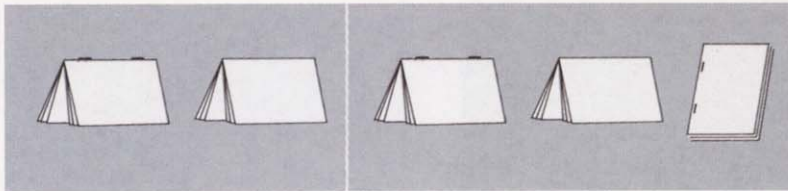

Plockmatic 61

Two different delivery systems. Belt Stacker (left) for larger volumes and Delivery Tray (right). Optional

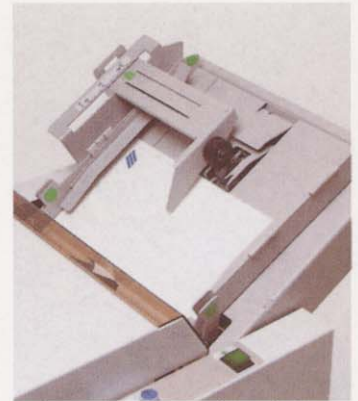

Easy to set controls. Two way communication with collators. Staple magazine control and jam indicator.

Booklets produced on-line with PLOCKMATIC 300/400 collator series.

Booklets produced off-line

Side and back jogging for perfect alignment of collated sets.

The PLOCKMATIC 61 is a cost effective, compact and completely quiet bookletmaker for on-line operation with PLOCKMATIC 300/400 collator series. A fully integrated system with two-way electronic communication for safe and accurate production through the entire system at all times. The PLOCKMATIC 61 can also with a simple adjustment be used as a stand alone bookletmaker for manual feeding.

An ideal supplement to your copier, digital duplicator, offset press or laser printer.

Applications

Product catalogues, manuals, news magazines, reports, directories etc. in the form of neatly folded booklets.

Advantages

- Fully automatic collating, stapling and folding enables fast and easy production of A4 or A5 booklets from A3 or A4 documents.
- Staples and folds up to 22 sheets (88 pages) 80 gsm stock.
- Speed is automatically set from the collator. Variable to suit operator when used off-line.
- Side and back jogging for perfect alignment of collated sets.
- Reducing text to 4 pages per sheet makes up to 75% savings on paper cost.
- Automatic collating and just folding of sets ready to be inserted in envelopes and mailed out.
- Handles a wide range of paper weights and qualities.
